

**"Science is the  
process of  
thinking God's  
thoughts after  
Him."  
Johannes Kepler**

Robert Ayton, award-winning teacher and former pharmaceutical chemist, presents a rational and interactive defense of a Biblical worldview that reveals God's glory within His creation while refuting an evolutionary worldview.

His desire is to serve Christ through his gifts of teaching and presenting the gospel message to all people.

# ABOUT...

Mr. Robert Ayton grew up outside Philadelphia, Pennsylvania where he received Christ as Lord at a young age.

He received his B.S. in Chemistry from Grove City College in 1999. After college, he then went on to become an analytical chemist for a pharmaceutical company. At 24 years old, he became a laboratory manager and would lead an elite team to the successful approval of multiple drugs which all greatly improved the quality of human life.

In 2005, God brought Ayton to Florida to enter into education as a missionary in the public schools. While at Dunnellon High School, Ayton earned several teaching awards such as the Presidential Award finalist, Marion County Teacher of the Year finalist, ACS Florida Chemistry Teacher of the Year. He also graduated summa cum laude in receiving his Master's of Education degree.

In 2014, Ayton undertook the opportunity at Redeemer Christian School in Ocala, FL to build a new high school science and mathematics program. During this time he was selected as the FAST Florida Science Teacher of the Year.

Throughout his tenure, Robert Ayton has had the opportunity to speak across our nation on topics of science, preach God's Word to congregations, and serve the Lord through the talents God has given him.
